WELCOME MESSAGE

We live in an era of virtual communication, which unquestionably facilitate the development and learning of science.

Nevertheless, we cannot replace the critical value of direct human contact between generations, schools, groups and individuals, especially in a science like medicine, which attempts to comprehensively assess human health.

That is why the Latin American Society of Cardiovascular and Thoracic Surgery, the Cardiac Bioassist Association, Latin American Society of Cardiology and Pediatric Cardiovascular Surgery, the World Society for Pediatric and Congenital Heart Surgery, and the Peruvian Society of Cardio Thoracic and Vascular Surgery, deepening their own profiles but also integrating them into common roots, call once again cardiovascular, thoracic and vascular surgeons, clinical and interventional cardiologists and angiologists from Peru, to come together with our fellow Americans, Europeans and Latin Americans colleagues from March 17th to March 21st in 2012, to the 17th International Congress of the Peruvian Society of Cardio Thoracic and Vascular Surgery, 6th Congress of the Latin-American Society of Cardio Thoracic Surgery, the 5th World Congress of the Cardiac Bioassist Association, and Joint Meeting of the World Society for Pediatric and Congenital Heart Surgery and the Latin American Society of Cardiology and Pediatric Cardiovascular Surgery; who united will provide the latest scientific advance research in the field and interaction of participants in order to exchange knowledge between attendees and panelists.

We believe that every aspect, including comfort and social activities, will ensure the satisfaction of the audience. With your participation and support, we have no doubt that this Congress will be a great success, which will enable us to further enhance the scientific level of our great event and join friendly ties between all countries.

PERU

Oh, Peru. We must see to believe. Open your eyes, wake up suddenly in Machu Picchu, the eternal city, declared today as one of the seven wonders of the world, is a dream that everyone should comply. Planting a tree, write a book, and have a child ... know Machu Picchu (and discover Peru).

A country with **10 thousand years of history**. It was the headquarters of the fabled Inca Empire. But long before that, ancient civilizations bequeathed to the world magnificent specimens of a glorious past as Caral; the Royal Tombs of Sipan, the most lavish burial of America; the enigmatic Nasca lines; and the awesome fortress of Kuelap.

One of the mega diverse nations on the planet, with 84 of the 117 life zones in the world. Where one can spend a solid soaring desert mountains and lush jungle in one breath.

An **exquisite territory**, with a kitchen that already has made the big leap to **haute cuisine**. A rainbow of sounds, flavors and colors that appear in more than 50 native languages still in use, thousands of ancient dances and musical instruments are allowed to see and hear great feasts and processions.

A destination that holds **infinite destinations**. Home to millions of people waiting with open arms their visit.
LIMA, ‘The City of Kings’

Lima, was from its founding in 1535, an oasis of culture and elegance in Spanish America. Today there are over 8 million inhabitants and welcomes immigrants from all over the world, Lima has become a mixed city parexcellence.

In the historic center, declared Cultural Patrimony of Humanity by UNESCO, you can see splendid examples of Colonial architecture like the Cathedral, the Santo Domingo Convent and the Convent of San Francisco, as well as beautiful carved wooden balconies.

Lima is also an inexhaustible source of culture, demonstrated is the existence of a large number and variety of museums like the National Museum of Archaeology, Anthropology and History and the Rafael Larco Herrera Archaeological Museum that house pre-Inca and Inca treasures of incalculable value.

Situated in the heart of the city are archeological monuments such as the Huallamarca or Pucllana Huaca and on the outskirts of Lima and near the sea is Pachacamac, the most important pre-Incan sanctuary on the coast, built in III b.c. Another major attraction of the city are beaches where water sports can enjoy the sun, or simply watch the beauty of the Pacific Ocean.

During your visit you can also try one of the best cuisines in the world. The city offers a wide variety of restaurants where delicious dishes, the result of the mixture of European kitchens, African, Asian, and Andean.
CUSCO

Cusco, southern Peruvian Andes (3250 m) is the first tourist resort in the country and one of the largest in America. Known by the Incas as the "Holy City", Cusco is the capital of a major pre-Columbian empire: the Tahuantinsuyo.

Its name in Quechua, Qosqo, means "navel of the world," because in his time, controlled a vast network of roads linking in practice, all of South America, from southern Colombia to northern Argentina.

Historic Sanctuary of MachuPicchu

The ancient citadel of Machu Picchu, in the southern Peruvian Andes, is the main attraction of Cusco. Discovered in 1911 by the American explorer Hiram Bingham, the citadel is considered the most extraordinary example of landscape architecture in the world. Machu Picchu ("old mountain" in Quechua, the ancient Inca language) is situated on the top a mountain overlooking the deep canyon of the Urubamba River, in tropical jungle. It is thought it was a center of worship and astronomical observation, or private premises of the family of Inca Pachacutec.
